

WMT (Waste Management Tracking)

Real Time Information Waste Location and Details

To manage waste from its inception to its final disposal, together with monitoring and regulation of the waste management process.

Waste Tracking - The management of clinical waste

GPRO-WMT is committed to provide a comprehensive approach to clinical waste management that covers on-site collections, containers, receptacles, user training and transportation. Real-time tracking keeps status information, waste weight and historical tracking lets them view a complete history of all tracking sessions recorded over time.

Managing the collection and disposal of waste products is an important and time-consuming undertaking. In order to make these processes more efficient, managers need an easy-to-use system to monitor the performance of processes and workers. The GPRO-WMT System for waste management services is an excellent solution.

Gain Visibility & Control

Track delivery date, time and quantity. Gain visibility on last known transaction of every asset.

Improve Operational Efficiency

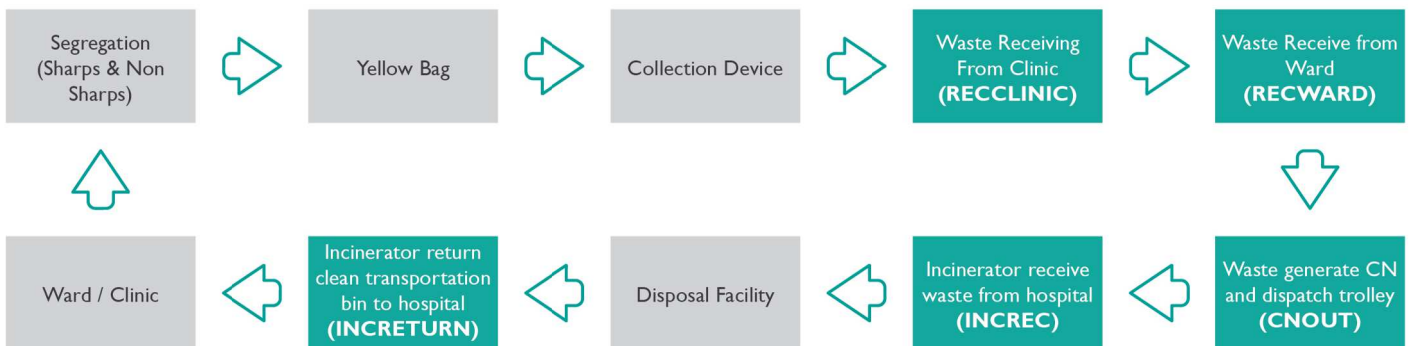

Know which asset was picked up and dropped off, when and where and by which truck and driver.

Settle Billing Issues

Bill your customers on accurate, up to the second data and solve billing issues as you now have visibility on your inventory.

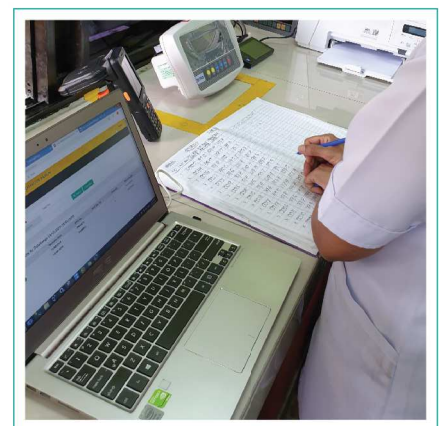

How it work ?
